DETAILED ACTION

Election/Restrictions

In response to the election dated 1/5/05, examiner notes that claims 1-13 have already been cancelled upon the filling of the divisional application. Furthermore, the species restriction has been withdrawn.

Allowable Subject Matter

Claims 14-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 14-19, there is no teaching or suggestion in the art of record disclosing a semiconductor circuit assembly comprising all of the limitations of claim 14 in combination with a second layer of dielectric deposited over the surface of the semiconductor die that is then planarized. Therefore, independent claim 14 is deemed allowable along with its dependent claims 15-19.

Regarding claims 20-24, there is no teaching or suggestion in the art of record disclosing a semiconductor package comprising all of the limitations of claim 20 in combination with a layer of dielectric deposited over the surface of the semiconductor device that is then planarized. Therefore, independent claim 20 is deemed allowable along with its dependent claims 21-24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patent 6168969 discloses a vertically stacked semiconductor package incorporating vertical conducting vias. US patent 6365499 discloses a chip carrier with conductive vias through an interposer.
